INDEPENDENT AUDITOR'S REPORT

Board of Directors
Harris County Water Control and
Improvement District No. 96
Harris County, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of Harris County Water Control and Improvement District No. 96 (the "District"), as of and for the year ended July 31, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of July 31, 2014, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 3 through 8 and the Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund on page 37 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide any assurance, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

**HARRIS COUNTY WATER CONTROL AND
IMPROVEMENT DISTRICT NO. 96
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JULY 31, 2014**

Management's discussion and analysis of Harris County Water Control and Improvement District No. 96's (the "District") financial performance provides an overview of the District's financial activities for the fiscal year ended July 31, 2014. Please read it in conjunction with the District's financial statements, which begin on page 9.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to the financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Fund Revenues, Expenditures and Changes in Fund Balances. This report also includes other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide portion of these statements provides both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of the government-wide statements is the Statement of Net Position. This information is found in the Statement of Net Position column on pages 9 through 12. The Statement of Net Position is the District-wide statement of its financial position presenting information that includes all of the District's assets and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The government-wide portion of the Statement of Activities on pages 14 and 15 reports how the District's net position changed during the current fiscal year. All current year revenues and expenditures are included regardless of when cash is received or paid.

FUND FINANCIAL STATEMENTS

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has three governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, costs and general expenditures. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes. The Capital Projects Fund accounts for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

IMPROVEMENT DISTRICT NO. 96
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JULY 31, 2014**

FUND FINANCIAL STATEMENTS (Continued)

Governmental funds are reported in each of the financial statements. The focus in the fund statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position on page 13 and the Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities on page 16 explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements can be found on pages 17 through 35 in this report.

OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI"). A budgetary comparison schedule is included as RSI for the General Fund, see page 37.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, assets exceeded liabilities by \$7,144,698 as of July 31, 2014.

A portion of the District's net position reflects its net investment in capital assets (e.g. water, wastewater and drainage facilities, less any debt used to acquire those assets that is still outstanding). The District uses these assets to provide water and wastewater services.

The following is a comparative analysis of government-wide changes in net position:

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

The District's combined fund balances as of July 31, 2014, were \$16,323,119 an increase of \$5,330,607 from the prior year.

The General Fund fund balance increased by \$312,105, primarily due to service revenues exceeding operating costs.

The Debt Service Fund fund balance increased by \$563,251, primarily due to the structure of the District's outstanding debt service, issuance of Series 2013 Refunding bonds, and issuance of Series 2014 bonds.

The Capital Projects Fund fund balance increased by \$4,455,251. This increase is due to the issuance of Series 2014 bonds.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Directors did not amend the budget during the current fiscal year. Actual revenues were \$141,589 more than budgeted and actual expenditures were \$1,196,651 less than budgeted. See the budget to actual comparison on page 37.

CAPITAL ASSETS

The District's capital assets as of July 31, 2014, amount to \$43,549,097 (net of accumulated depreciation). These capital assets include land, construction in progress, building and park improvements, as well as the water, wastewater and drainage systems, and water and wastewater impact fees.

Some of the significant capital asset additions during the current fiscal year include:

- Fall Creek Section 21
- Fall Creek Athletic Fields, Access Roads, and Athletic Facility
- Fall Creek West Detention Repair and Erosion

Construction in progress at July 31, 2014 included:

- Water Plant No. 1 Improvements – Construction and Engineering
- Fall Creek Detention Phase III - Engineering
- Lift Station No. 5 - Engineering

LONG TERM DEBT ACTIVITY

At the end of the current fiscal year, the District had total bond debt payable of \$52,150,000.

The changes in the debt position of the District during the fiscal year ended July 31, 2014, are summarized as follows:

Bond Debt Payable, August 1, 2013	\$ 47,395,000
Add: Bond Sales	14,740,000
Less: Bond Principal Paid and Refunded	9,985,000
Bond Debt Payable, July 31, 2014	\$ 52,150,000

The District's bonds carry an underlying rating of "A-" by Standard and Poor's. The District's Series 2004, 2004-A and 2006 bonds carry a "B+" rating by virtue of bond insurance issued by Radian Asset Assurance Inc. ("Radian"). The Series 2006-A bonds were insured by virtue of bond insurance issued by Ambac. Ambac's insured rating has been withdrawn. The Series 2008, 2009, 2010, 2011 Refunding and 2012 Refunding bonds carry a "AA" rating by virtue of bond insurance issued by Assured Guaranty. The Series 2013 Refunding and Series 2014 bonds carry a "AA" rating by virtue of bond insurance issued by Build America Mutual Assurance Company. The ratings above are as of July 31, 2014.

Net Change in Fund Balances - Governmental Funds	\$	5,330,607
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report tax revenues when collected. However, in the Statement of Activities, revenue is recorded in the accounting period for which the taxes are levied.		3,889
Governmental funds report penalty and interest revenue on property taxes when collected. However, in the Statement of Activities, revenue is recorded when penalties and interest are assessed.		14,810
Governmental funds do not account for depreciation. However, in the Statement of Net Position, capital assets are depreciated and depreciation expense is recorded in the Statement of Activities.		(1,261,433)
Governmental funds report capital expenditures as expenditures in the period purchased. However, in the Statement of Net Position, capital assets are increased by new purchases and the Statement of Activities is not affected.		1,466,828
Governmental funds report bond insurance as expenditures and bond discounts and bond premiums as other financing sources(uses) in the year paid. However, in the Statement of Net Position, the bond insurance, bond discounts and bond premiums are amortized over the life of the bonds and the current year amortized portion is recorded in the Statement of Activities.		(204,806)
Governmental funds report bond principal payments as expenditures. However, in the Statement of Net Position, bond principal payments are reported as decreases in long-term liabilities.		1,915,000
Governmental funds report interest expenditures on long-term debt as expenditures in the year paid. However, in the Statement of Net Position, interest is accrued on the long-term debt through fiscal year-end.		(543,742)
Governmental funds report bond proceeds as other financing sources. Issued bonds increase long-term liabilities in the Statement of Net Position.		(14,740,000)
Governmental funds report the payment to the refunded bond escrow agent as an expenditure and as an other financing use. However, the refunding of outstanding bonds decreases long-term liabilities in the Statement of Net Position.		8,384,766

**HARRIS COUNTY WATER CONTROL AND
IMPROVEMENT DISTRICT NO. 96
NOTES TO THE FINANCIAL STATEMENTS
JULY 31, 2014**

NOTE 1. CREATION OF DISTRICT

Harris County Water Control and Improvement District No. 96 of Harris County, Texas (the "District") was created effective June 16, 1966 by an Order of the Texas Water Rights Commission, presently known as the Texas Commission on Environmental Quality (the "Commission"). Pursuant to the provisions of Chapters 49 and 51 of the Texas Water Code the District is empowered to purchase, operate and maintain all facilities, plants and improvements necessary to provide water, sanitary sewer service, storm sewer drainage, irrigation, solid waste collection and disposal, including recycling, and to construct parks and recreational facilities for the residents of the District. The District is also empowered to contract for or employ its own peace officers with powers to make arrests and to establish, operate and maintain a fire department to perform all fire-fighting activities within the District. The Board of Directors held its first meeting in 1966. The first bonds were sold on January 16, 2003.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB"). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission.

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether or not an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District's financial statement as component units.

Financial Statement Presentation

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting.

The GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined as follows:

IMPROVEMENT DISTRICT NO. 96
NOTES TO THE FINANCIAL STATEMENTS
JULY 31, 2014**

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

- Net Investment in Capital Assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- Restricted Net Position – This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position – This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special purpose government and has the option of combining these financial statements.

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated to obtain net total revenues and expenses of the government-wide Statement of Activities.

Fund Financial Statements

As discussed above, the District's fund financial statements are combined with the government-wide statements. The fund statements include a Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements (Continued)

Governmental Funds

The District has three governmental funds and considers each to be a major fund.

General Fund - To account for resources not required to be accounted for in another fund, customer service revenues, costs and general expenditures.

Debt Service Fund - To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

Capital Projects Fund - To account for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both “measurable and available.” Measurable means the amount can be determined. Available means collectable within the current period or soon enough thereafter to pay current liabilities. The District considers revenue reported in governmental funds to be available if they are collectable within 60 days after year end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

Property taxes considered available by the District and included in revenue include taxes collected during the year and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures.

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis. As of July 31, 2014, the District’s General Fund owed the Debt Service Fund \$7,719 for an overtransfer of maintenance tax collections, and the General Fund owed the Capital Projects Fund \$14,493 for an overtransfer of engineering fees. During the current fiscal year, the Capital Projects Fund transferred \$27,953 to the General Fund for bond issuance costs previously paid by the General Fund and \$5,293 for engineering costs previously paid by the General Fund.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenditures in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs that extend the life of an asset are capitalized and depreciated over the estimated useful life of the asset. Interest costs, including developer interest, engineering fees and certain other costs are capitalized as part of the asset.

Assets are capitalized, including infrastructure assets, if they have an original cost greater than \$5,000 and a useful life over two years. Depreciation is calculated on each class of depreciable property using the straight-line method of depreciation. Estimated useful lives are as follows:

	Years
Buildings	40
Water System	10-45
Wastewater System	10-45
Drainage System	10-40
All Other Equipment	3-20

Budgeting

In compliance with governmental accounting principles, the Board of Directors annually adopts an unappropriated budget for the General Fund. The budget was not amended during the current fiscal year.

Pensions

The District has not established a pension plan as the District does not have employees. The Internal Revenue Service determined that directors are considered to be “employees” for federal payroll tax purposes only.

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination

Measurement Focus (Continued)

of operating income, changes in net position, financial position, and cash flows. All assets and liabilities associated with the activities are reported. Fund equity is classified as net position.

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources. Fund balances in governmental funds are classified using the following hierarchy:

Nonspendable: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District does not have any nonspendable fund balances.

Restricted: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed funds.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances. The District has assigned \$1,199,881 of its General Fund fund balance to cover the projected 2015 budget deficit.

Unassigned: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3. BONDS PAYABLE (Continued)

During the year ended July 31, 2014, the District levied an ad valorem debt service tax at the rate of \$0.69 per \$100 of assessed valuation, which resulted in a tax levy of \$4,280,234 on the adjusted taxable valuation of \$620,323,775 for the 2013 tax year. The bond orders require the District to levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and the cost of assessing and collecting taxes. See Note 7 for the maintenance tax levy.

The District's tax calendar is as follows:

- Levy Date - October 1 or as soon thereafter as practicable.
- Lien Date - January 1.
- Due Date - Not later than January 31.
- Delinquent Date - February 1, at which time the taxpayer is liable for penalty and interest.

NOTE 4. SIGNIFICANT BOND ORDER AND LEGAL REQUIREMENTS

- A. The bond orders state that the District is required by the Securities and Exchange Commission to provide continuing disclosure of certain general financial information and operating data with respect to the District to the state information depository. This information, along with the audited annual financial statements, is to be provided within six (6) months after the end of each fiscal year and shall continue to be provided through the life of the bonds.
- B. The bond orders state the District will take all necessary steps to comply with the requirement that rebatable arbitrage earnings on the investment of the gross proceeds of the Bonds, within the meaning of section 148(f) of the Internal Revenue Code, be rebated to the federal government. The minimum requirement for determination of the rebatable amount is on the five year anniversary of each issue.
- C. In accordance with Series 2014 bond orders, a portion of the bond proceeds was deposited into the Debt Service Fund and reserved for the payment of bond interest during the construction period. This bond interest reserve is reduced as the interest is paid. Transactions for the current year are summarized as follows:

Bond Interest Reserve August 1, 2013	\$	-0-

NOTE 5. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year end, the carrying amount of the District's deposits was \$13,458,613 and the bank balance was \$13,523,960. Of the bank balance, \$2,482,910 was covered by federal depository insurance and the balance was covered by collateral pledged in the name of the District and held in a third party depository.

The carrying values of the deposits are included in the Governmental Funds Balance Sheet and the Statement of Net Position at July 31, 2014, as listed below:

	<u>Cash</u>	<u>Certificates of Deposit</u>	<u>Total</u>
GENERAL FUND	\$ 2,573,632	\$ 490,000	\$ 3,063,632
DEBT SERVICE FUND	4,407,484	735,000	5,142,484
CAPITAL PROJECTS FUND	<u>5,252,497</u>	<u> </u>	<u>5,252,497</u>
TOTAL DEPOSITS	<u>\$ 12,233,613</u>	<u>\$ 1,225,000</u>	<u>\$ 13,458,613</u>

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District's financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth;

and yield, sixth. The District's investments must be made "with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived." No person may invest District funds without express written authority from the Board of Directors.

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. Authorized investments are summarized as follows: (1) obligations of the United States or its agencies and instrumentalities, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states, agencies, counties, cities, and other political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) insured or collateralized certificates of deposit, (8) certain fully collateralized repurchase agreements secured by delivery, (9) certain bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

The District invests in TexPool, an external investment pool that is not SEC-registered. The State Comptroller of Public Accounts of the State of Texas has oversight of TexPool. Federated Investors, Inc. manages the daily operations of TexPool under a contract with the Comptroller. The fair value of the District's position in the pool is the same as the value of pool shares.

TOTAL INVESTMENTS	<u>\$ 5,065,069</u>	<u>\$ 5,065,069</u>	<u>\$ - 0 -</u>	<u>\$ - 0 -</u>	<u>\$ - 0 -</u>

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At July 31, 2014, the District's investment in TexPool was rated AAAM by Standard and Poor's.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investment in TexPool to have a maturity of less than one year due to the fact the share position can usually be redeemed each day at the discretion of the District, unless there has been a significant change in value.

Restrictions

All cash and investments of the Debt Service Fund are restricted for the payment of debt service and the cost of assessing and collecting taxes. All cash and investments of the Capital Projects Fund are restricted for the purchase of capital assets.

NOTE 7. MAINTENANCE TAX

On May 5, 2001, the voters of the District approved the levy and collection of a maintenance tax not to exceed \$1.50 per \$100 of assessed valuation of taxable property within the District. During the current fiscal year, the District levied an ad valorem maintenance tax at the rate of \$0.25 per \$100 of assessed valuation, which resulted in a tax levy of \$1,550,810 on the taxable valuation of \$620,323,775 for the 2013 tax year. This maintenance tax is to be used by the General Fund to pay expenditures of operating the District's waterworks and sanitary sewer system.

NOTE 8. DUE TO DEVELOPERS

The District has executed developer financing agreements with Developers within the District. The agreements call for the Developers to fund costs associated with water, wastewater, and drainage facilities until such time as the District can sell bonds. As reflected in the Statement of Net Position, \$128,971 has been recorded as a liability for facilities financed by Developers which the District now operates and maintains. Reimbursements to the Developers will come from future bond sales.

NOTE 9. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, error and omission and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

NOTE 10. WATER SUPPLY CONTRACT WITH THE CITY OF HOUSTON

The District entered into a Water Supply Contract with the City “(Supply Contract)” on May 17, 2001. Pursuant to the Supply Contract, the District agrees to construct all facilities necessary to enable it to receive water from the City’s distribution system. The District’s connection to the City’s system will be metered. The District will be billed monthly once delivery of the water has commenced. The District’s initial minimum quantity was 300,000 gallons per month. Effective October 1, 2010, the minimum monthly quantity was 15,745,000 gallons per month. The District must pay for the minimum monthly quantity whether or not the water is used. The District is entitled to revise its minimum monthly quantity no more than three times during the initial year of the contract term, twice during the second year, and once each year thereafter by providing written notice thereof to the Utility Official of the Department of Public Works and Engineering of the City. After the fourth year any revision resulting in an increase in excess of 10% of the current minimum monthly quantity will not be effective until approved in writing by the Utility Official. The charge for water shall be calculated in accordance with the rates for contract treated water customers that do not receive surface water only. Currently, the rate for the minimum monthly quantity is \$2.722 per 1,000 gallons. However, if the District exceeds the minimum monthly quantity, surcharges apply. The rates charged by the City may be amended at any time. The agreement shall expire on the fortieth (40th) anniversary of the contract date. During the current fiscal year, the District recorded expenditures of \$1,199,236 related to this contract.

NOTE 11. WASTE DISPOSAL CONTRACT WITH THE CITY OF HOUSTON

The District entered into a Waste Disposal Contract with the City (“Waste Contract”) on July 9, 2001. Pursuant to the Waste Contract, the District agrees to construct all facilities necessary to enable it to convey its waste to the City’s facilities. The District will be billed monthly on the amount of wastewater delivered to the City. The amount of wastewater delivered to the City will be calculated by taking the total of all water the District delivers to its customers as measured by the customer meters, less the amount of water measured by any irrigation meters. The rate currently charged for wholesale sewer service is \$1.368 per 1,000 gallons for eligible conservation and reclamation districts that have purchased permanent treatment capacity in the City’s sewage treatment system. During the current fiscal year, the District recorded expenditures of \$439,686 related to this contract.

In addition, the District is required to make capital contributions to the City. These capital contributions were initially determined to be \$940 for each single-family residential customer receiving sewer treatment service from the District. During a prior fiscal year, this amount increased to \$1,105.90, and then increased to \$1,199.11. The District’s payment of this fee entitles it to the wholesale sewer service charge applicable to users under similar circumstances.

The District’s initial capacity must be at least 64 service units. During a prior fiscal year, the District reimbursed the Developer \$60,160 for the initial 64 service units. During prior fiscal years, the District purchased an additional 1,216 service units from the City of Houston at a cost of \$1,226,493 and an additional 644 service units from the City of Houston at a cost of \$772,237, and an additional 150 service units from the City of Houston at a cost of \$179,892. The District is entitled to purchase additional capacity from time to time if there is uncommitted capacity available in the City plant and the District files an application with the City for additional capacity. Each purchase of capacity must include wastewater capacity for at least a platted subdivision. Rates for future capacity purchases will be the same rates as the City sets for wastewater impact fees. This term of this contract is forty (40) years.

NOTE 12. STRATEGIC PARTNERSHIP AGREEMENT

Effective July 11, 2006, the District entered into a Strategic Partnership Agreement with the City of Houston, Texas (the “City”). The agreement provides that in accordance with Chapter 43 of the Local Government Code and the Act, the City shall annex a tract of land defined as the “Tract” for limited purposes as outlined in the agreement. The District will continue to develop, to own, and to operate and maintain a water and wastewater system in the District.

**HARRIS COUNTY WATER CONTROL AND
IMPROVEMENT DISTRICT NO. 96
NOTES TO THE FINANCIAL STATEMENTS
JULY 31, 2014**

NOTE 12. STRATEGIC PARTNERSHIP AGREEMENT (Continued)

All taxable property within the District shall not be liable for any present or future debts of the City, and current and future taxes levied by the City shall not be levied on taxable property within the District. Upon the limited-purpose annexation of the Tract, the City's municipal courts shall have jurisdiction to adjudicate cases filed under the most current section of the Fire Code banning fireworks as adopted by City Council, and under state laws as set out in Article 4.14 of the Texas Code of Criminal Procedure, arising from actions occurring within the Tract. The District's assets, liabilities, indebtedness, and obligations will remain the responsibility of the District during the period of this agreement.

After the Tract is annexed for limited purposes by the City, the qualified voters of the Tract may vote in City elections pursuant to Local Government Code. The City is responsible for notifying the voters within the Tract.

The City shall impose a Sales and Use Tax within the boundaries of the Tract upon the limited-purpose annexation of the Tract. The Sales and Use Tax shall be imposed on the receipts from the sale and use at retail of taxable items at the rate of one percent or the rate specified under the future amendments to Chapter 321 of the Tax Code. The City agreed to pay to the District an amount equal to one-half of all Sales and Use Tax revenues generated within the boundaries of the Tract. The City agreed to deliver to the District its share of the sales tax receipts within thirty (30) days of the City receiving the funds from the State Controllers office.

The City agrees that it will not annex the District for full purposes or commence any action to annex the District for full purposes during the term of this Agreement. The term of this Agreement is thirty (30) years from the effective date of the agreement. During the current fiscal year, the District recorded revenues in the amount of \$84,058 related to this agreement.

NOTE 13. EMERGENCY WATER SUPPLY CONTRACT

On April 24, 2006, the District executed an emergency water supply contract with Harris County Municipal Utility District No. 400 ("District No. 400"). The contract provides that each district will construct a water line to the point of interconnect. Each district will be responsible for the construction of the water line on their respective sides of the point of interconnect. The districts will share equally in the construction of the interconnect facilities. The price to be paid for water

delivered shall be billed at the then effective City of Houston rate for wholesale treated surface water customers per thousand gallons of average daily usage for the number of days water is received. Average daily usage shall be calculated in accordance with the provisions outlined in the agreement. In the event the supplying party purchased all or a portion of the water supplied from an adjoining district, the receiving party shall pay the supplying party for water received at a rate per 1,000 gallons equal to the rate paid by the supplying party for such water in the event that such rate is greater than the City of Houston rate, as noted above. The term of the agreement is for forty (40) years.

On April 22, 2010, the District executed an emergency water supply contract with Harris County Municipal Utility District No. 49 (“District No. 49”). The contract provides that each district will construct a water line to the point of interconnect. Each district will be responsible for the construction of the water line on their respective sides of the point of interconnect. District No. 49 will install the cutoff valve and locking valve cover at the point of interconnect and will be responsible for all costs of design and construction of such cutoff valve and locking valve cover. Both Districts shall have keys to the lock and shall have right of access to the valve box at all times. The price to be paid for water delivered shall be billed at the actual cost to the supplying party per thousand gallons of average daily usage for the number of days water is received. Average daily usage shall be calculated in accordance with the provisions outlined in the agreement. The term of the agreement is for 50 years.

NOTE 14. WATER SUPPLY CONTRACT

On August 25, 2011, the District executed a water supply contract with District No. 49. The contract provides that District will construct a water line to the point of interconnect. District No. 49 will provide water service in an amount sufficient to serve approximately five domestic equivalent single family connection and 91 equivalent single family connections for irrigation water at 400 gallons per day per connection. The rates charged will be the current rate charged by District No. 49 to in-district commercial and irrigation water users. The term of the agreement is through July 31, 2021, but the agreement may be extended for additional one-year terms in accordance with the provisions of the agreement. The agreement may be terminated upon 60 days written notice by the District.

NOTE 15. REFUNDING BOND SALE

On December 19, 2013, the District closed on the sale of its \$8,310,000 Series 2013 Unlimited Tax Refunding Bonds with interest rates of 2.00% to 4.00% to refund \$340,000 of Series 2004 Bonds, \$800,000 of Series 2004A bonds, and \$6,930,000 of Series 2006 Bonds. The net proceeds of \$8,236,766 (after payment of underwriting fees and other issuance costs) and \$148,000 of District funds were used to call the Series 2004 and Series 2004A bonds and to purchase U.S. government securities that will be used to call the Series 2006 bonds. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the Series 2006 refunded bonds. As a result, the refunded bonds are considered to be defeased and the liability for those bonds has been removed from the Statement of Net Position.

The District refunded the following bonds to restructure its total outstanding debt; the effect of which was to decrease its total debt service requirement by \$322,807 and at the same time obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$251,104.

NOTE 16. BOND SALE AND SUBSEQUENT EVENT

On February 6, 2014, the District closed on the sale of its \$6,430,000 Series 2014 Unlimited Tax bonds. Proceeds of the bonds will be used to pay the engineering and construction costs of a non-potable water distribution system and for improvements to the District's water repressurization plant (Water Plant No. 1). Bond proceeds were also used to capitalize twelve months of interest on the bonds and to pay certain costs associated with the issuance of the bonds.

On September 18 2014, subsequent to fiscal year-end, the District closed on the sale of its \$3,370,000 Series 2014A Unlimited Tax Refunding Bonds with interest rates of 2.00% to 4.00% to refund \$2,400,000 of Series 2006 Bonds, and \$900,000 of Series 2006A Bonds.
